

database usability checklist

Ready to launch a winning campaign? Don't fall short at the finish line! Create a frictionless user-experience and capture high-quality data for future campaigns with this checklist.

	IN PROGRESS	DONE
<i>Fields use default values when appropriate</i>	<input type="checkbox"/>	<input type="checkbox"/>
<i>When data entry is capturing information from paper documents (such as a paper form), the data interface is in the same order as the paper form</i>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Field labels are intuitive and clearly explain what information is desired and are close to the data entry fields (e.g. labels are right justified)</i>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Text boxes are configured to an appropriate length for the data to be entered</i>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Critical data is marked as "Required" fields</i>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Data entry fields have hints that can provide examples of the expected input</i>	<input type="checkbox"/>	<input type="checkbox"/>

Are you thinking what we're thinking? Think Pixa for all things strategy & design!

	IN PROGRESS	DONE
<i>Pull-down menus, radio buttons and check boxes are used when possible to keep data consistent (i.e. text entry fields are not overused)</i>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Users can complete basic tasks by entering just essential information (with the system supplying default information)</i>	<input type="checkbox"/>	<input type="checkbox"/>
<i>The user can easily change default values in form fields</i>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Forms are validated before the form is submitted</i>	<input type="checkbox"/>	<input type="checkbox"/>
<i>The database makes it easy to correct errors (e.g. when a form is incomplete, positioning the cursor at the location where correction is required)</i>	<input type="checkbox"/>	<input type="checkbox"/>
<i>The database automatically manages field formatting (e.g. currency symbols, commas for 1000s, trailing or leading spaces, dates). Users do not need to enter characters like \$ or %.</i>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Data is grouped logically on the user interface, and each section has a heading (e.g. contact information, volunteer history, donation history)</i>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Data entry forms allow users to stay with a single input method for as long as possible (i.e. users do not need to change from keyboard to mouse to keyboard to frequently).</i>	<input type="checkbox"/>	<input type="checkbox"/>
